OFFICE.

N. W. Cor. Front & Stark Sts.  Paint Factory & Oil Refinery,
202 & 204 Fourteenth St.

PORTLAND : OREGON.

For Sale by

Stewart & Hudson

PRACTICAL HINTS.

FOLLOW DIRECTIONS ON CAN.

Stir the Paint thoroughly before using. Let the first coat get thoroughly dry before applying the second. Should the Paint become too thick by standing open, it may thinned with Raw Linseed Oil, **except for Inside Work**, for which use Turpentine. The surface should be thoroughly dry before the paint is applied, otherwise any paint will blister and scale off. Always begin at the top in painting and work down, taking care to remove all dust in advance of your work, and covering all knots, pitchy or sappy portions of the wood with shellac varnish or the Lindhard Liquid Filler. We will in no case guarantee our paint unless it is applied according to directions.

WAGON BLUE, 7.

VERMILION, 21.

BLIND GREEN, 48.

Rule for Ascertaining Amount of Paint Required.

Add together the four sides in feet. Multiply this sum by average height, divide product by 250, and the result will be the number of gallons required for a two-coat job on a dry and porous surface. Thus: A house 20 x 40 x 25 will take.

Front,	-	-	-	-	20 feet.
Rear,	-	-	-	-	20 feet.
Side,	-	-	-	-	40 feet.
Side,	-	-	-	-	40 feet.

	120
Multiply by height,	25

Divide by - - 250 3,000 (12 gallons).

This Paint will cover according to the condition of the surface from 250 to 300 or an average of 275 sq. ft. per gallon, two coats.

Any color not on this card will be made without extra charge if ordered in not less than 10 Gallon lots.
